## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - Claims 1-15, drawn to a method of making an anisotropic electrically conducting layer, classified in class 438, subclass 82.
  - Claims 16-48, drawn to an organic light-emitting device, classified in class
     313, subclass 504.
- 2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, one of ordinary skill in the art would be able to utilize vapor deposition or solvent deposition to make the light-emitting layer, rather than the Cascade Crystallization Process.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Application/Control Number: 10/643,257

Art Unit: 2879

4. A telephone call was made to Tianjun Hou on May 23, 2005 to request an oral election to the above restriction requirement, but did not result in an election being

Page 3

made.

5. Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement be

traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Christopher M. Raabe whose telephone number is 571-

272-8434. The examiner can normally be reached on m-f 7am-3:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Nimesh Patel can be reached on 571-272-2457. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Application/Control Number: 10/643,257

Art Unit: 2879
